

Undergraduate Catalog

About the Catalog

The St. Mary's University Undergraduate Catalog is the comprehensive single source of University-wide information related to academic programs, course descriptions, degree programs, and policies that govern progress towards completion of an undergraduate degree. A new version of the catalog is published each academic year by June 1. On many subjects, more detailed information is available from school and department webpages for various programs and services. Students should seek information from these sources as needed.

Disclaimer

The University reserves the right at any time to delete, amend, or alter any of the customs, rules, regulations, and requirements of the University, such as required courses, credit hours and weeks in resident study to graduate even though the same may not be expressly set out in this online catalog. Information contained herein is not to be regarded as creating a binding contract between the applicant or the student and the University. This disclaimer is necessitated by the fact that the Catalog is an accurate compilation of the customs, rules, regulations, and requirements of the University as of the time it is published. During the year a Catalog is in effect, the continuing responsibility of operating the school may require changes by the University administration of those customs, rules, regulations, and requirements. Students should be aware, therefore, of the need to determine the current status of any rule stated in this Catalog.
